Re: Payments for Service Installation & Pipelines

You will receive a monthly statement showing the *balance* on your account. Please pay *at least* \$50 per month from this statement. There is no penalty for paying off your balance early.

Interest charges are calculated *once a month* on the unpaid balance. This will show up on your statement as "INV". Should you become delinquent in your payments, Browns Valley Irrigation District may place an assessment against your property with the Yuba County Tax Collector, so please send your payments in a timely manner.

Should you choose to sell your property before the debt is paid off, your title company must notify us so that payment in full can be made through Escrow.

Please call me if you have any questions.
